## SUMMARY

Recent graduate of the Springboard Software Engineering Bootcamp with a strong foundation in full-stack development. Proficient in HTML, CSS, JavaScript, and experienced in building dynamic web applications using React, Django, and Express. Passionate about creating user-centric experiences and eager to contribute to innovative software projects.

---

## TECHNICALS SKILLS

**Programming Languages:** JavaScript, HTML5, CSS3, Bootstrap, Python, Node.js.

**Frameworks and Library:** React, Django, Flask, Jinja, SQLAlchemy, Express, Jasmine, Jest.

**Databases:** MySQL, PostgreSQL, MongoDB, Supabase, ElephantSQL.

**Deployment:** Heroku, Render, Aws, Vercel.

**Version Control Systems:** Git (GitHub).

---

## EXPERIENCE

### Software Engineering Fellow

Springboard Software engineering Bootcamp

March 2023 - May 2024, remote

- Completed 800+ hours of immersive coursework, mastering front-end and back-end web development, databases, and data structures; developed four portfolio projects under the guidance of industry experts through 1:1 mentorship.

---

## PROJECTS

### Playlist-song app

[github.com/Jojodechris/playlist\\_app\\_project](https://github.com/Jojodechris/playlist_app_project)

- Developed a comprehensive playlist-song app leveraging SQL, SQLAlchemy, Flask, Python, HTML, and Jinja2; enabled users to effortlessly create and manage multiple playlists, improving user engagement and demonstrating advanced web development skills.

### Food recipe app

[github.com/Jojodechris/capstone\\_project\\_recipe\\_app](https://github.com/Jojodechris/capstone_project_recipe_app)

- Engineered a comprehensive recipe app allowing users to consult a wide range of recipes, and create and favorite a recipe. Made use of HTML, CSS, JavaScript/jQuery, Bootstrap, Django, jinja, Python Flask, and SQL Alchemy.

### Books library app

[github.com/Jojodechris/capstone-project2](https://github.com/Jojodechris/capstone-project2)

- Comprehensive platform designed to streamline finding, ordering, and reviewing books for users. Built using HTML, CSS, JavaScript (React.js), Node.js, Express.js, and Postgresql.

---

## EDUCATION

### Web design certificate

University of Maryland Global Campus • remote • 2024

### Software engineering certificate

Springboard bootcamp • remote • 2024

### Bachelor Degree in Law

Catholic University of Central Africa • Cameroon • 2021
