SUMMARY

Results-driven software engineer with expertise in web- development and strong problem-solving skills. Proficient in multiple programming languages and experienced in collaborating with cross-functional teams to deliver high-quality software solutions. Committed to continuous learning and staying updated with industry trends to drive innovation.

EXPERIENCE

Software engineer trainee

Springboard bootcamp   **March 2023 - February 2024, remote**

· An intensive and comprehensive software-engineering bootcamp program , renowned for its industry-focused curriculum and hands-on learning approach. Developed proficiency in web development, including front-end and back-end technologies, through a rigorous curriculum that emphasized real-world projects and industry-relevant skills.

· Mastered HTLM, C.S.S , JavaScript, and popular front-end libraries/frameworks.

· Gained expertise in building responsive and user friendly web interfaces.

· Acquired strong proficiency in server -side development with Node.js and Express .

· Developed and deployed full-stack web applications using modern technologies.

· Collaborated with peers on group projects, simulating real-world development team dynamics.

· Extensive experience in version control systems, code reviews, and debugging practices.

· Demonstrated problem-solving skills through challenging coding assignments.

· Received mentorship and guidance from experienced industry professionals

PROJECTS

Playlist-song app

https://github.com/Jojodechris/playlist_app_project

· Built a versatile playlist-song app using SQL, SQLAlchemy, Flask, Python, HTML, and Jinja2. Empowered users to create and manage playlists effortlessly, with the flexibility for numerous songs in various playlists. Demonstrated strong web development and database management skills while focusing on user-centric design.

Capstone project 1 - Food recipe app

https://github.com/Jojodechris/capstone_project_recipe_app

· Using HTML ,CSS ,JavaScript/jQuery ,Bootstrap ,django ,jinja ,Python ,FlaskSQL Alchemy, i implemented a recipe app that can allow users to consult a wide range of recipe but also create and favorite a recipe.

Capstone project2 -Books library app

https://github.com/Jojodechris/capstone-project2 · January 2024 -March 2024

· Using HTML, CSS, JavaScript (React.js),Node.js, Express.js and Postgresql, i implemented a comprehensive platform designed to streamline the process of finding, ordering, and reviewing books for users.

EDUCATION

Associate degree computer science

Frederick community college · Maryland ,Frederick · 2023

· English communication| Math fundamentals|Basic algorithms |Basic programming

Software engineering certificate

Springboard bootcamp · Remote · 2023

· Full stack development

Bachelor degree in law

University catholic of central Africa · Cameroon · 2021

SKILLS

Proficient in Python, Java, C++, JavaScript. Strong in data structures, web development (HTML, CSS, JavaScript, Bootstrap), and back-end tech (Node.js, Ruby on Rails, Django). Skilled in both SQL and NoSQL databases. Experienced with Git, testing, and debugging. Familiar with frameworks, libraries (e.g., React, Angular, TensorFlow), and API design.
